ZEYTİN GIDA ve AMBALAJ SAN. TİC. A.Ş.

Gemic Entegre Fabrikamız

Akhisar Fabrikamız

Nesilden Nesile

Güngör Ailesi, Bursa'nın Orhangazi ilçesinin Narlıca kasabasında zeytin üreticiliği yaparken, 1990'lı yılların başında Zeytin ticaretine başlamıştır.

Ufak çaplı başlayan zeytin ticaretimizi, zeytin tedarik ettiğimiz üretici çiftçilerimizin destekleri ve zeytin sattığımız müşterilerimizin teşvikleriyle beraber 2003 yılında temelini attığımız ambalaj ve paketleme üzerine üretim yapan Gemlik fabrikamızı faaliyete geçirerek büyüttük.

2010 yılında 30 dönüm arazi üzerine kurulu, 6.000 ton zeytin depolama ve günlük 20 ton zeytin paketleme kapasitesine sahip Akhisar fabrikamızın yatırımını gerçekleştirerek, yeşil zeytin çeşitleri ve dilimlenmiş zeytin grubunu ürün portföyümüze ekledik.

Aynı yıl içerisinde Orhangazi'nin meşhur Gedelek köyünde 40 yıldır turşu sektöründe faaliyet gösteren Pınar Turşu ve Zeytinleri firmasını bünyemize kattık. Böylelikle tüm zeytin ve turşu çeşitleriyle beraber müşterilerimizin istek ve taleplerini karşılayabilecek altyapımızı oluşturduk.

Zeytin ve turşu ürünleri yılda bir kez hasat edilen ürünlerdir. Bu yüzden işlenecek zeytin ve turşu yapılacak sebzelerin, hasat dönemlerinde alınıp uygun şartlarda depolanması gerekir. Hasat döneminde ham olarak alınan zeytinler, eğer uygun şartlarda depolanmazsa kalite ve lezzet kaybına uğrarlar. Ülkemizin artan zeytin rekoltesini göz önüne alarak, yıl boyunca üretmiş olduğumuz ürünleri, istikrarlı bir şekilde müşterilerimize ulaştırmak amacıyla 2014 yılında temelini attığımız Orhangazi'nin Gemiç mahallesindeki entegre fabrikamızı 2016 yılında faaliyete geçirdik.

Gemiç entegre fabrikamız 15.000 ton ürün depolama kapasitesine sahiptir. Gemiç entegre fabrikamızda en son teknoloji paketleme üretim hatları sayesinde günlük 100 ton ürün paketlemesi yapabilmekteyiz.

Tüm fabrikalarımızda toplam 21.000 ton zeytin ve 6.000 ton fermente turşu depolama kapasitemiz mevcuttur.

Üretmiş olduğumuz ürünleri, ülkemizin 81 ilindeki birçok market ve perakende satış noktalarına ulaştırmaktayız. Ayrıca başta Ortadoğu, Türk Cumhuriyetleri, Rusya ve Avrupa olmak üzere 20'ye yakın ülkeye ürünlerimizi ihraç etmekteyiz.

Hız. Mevlana'nın "dert, yol gösterir" sözü bize düstur olmuş ve firma olarak biz zeytinle dertlenip, zeytini daha iyi ve kaliteli olarak nasıl üretebiliriz, nasıl geliştiririz diyerek çok ciddi arge çalışmaları gerçekleştirmekteyiz.

Örneğin siyah zeytinlerimizin tuz oranını eskiye oranla ortalama %25-%30 civarında azalttık. Ayrıca daha az tuzlu, kurutulmuş siyah zeytinlerimiz müşterilerimizin oldukça beğenisini kazanmaktadır.

Akhisar fabrikamızda biberli yeşil zeytin üretiminde, yeşil zeytin dolgusu olarak kullanılan, biber pastası üretimine 2016 yılında başladık. Daha önceleri yurt dışından ithal edilen biber pastası, yapmış olduğumuz 2 yıllık Arge çalışmalarımızın bir sonucudur ve Türkiye'de ilk biber pastası üretimini yapan yerli bir firma olmanın haklı gururunu yaşamaktayız. Biber pastası üretimiyle hem ülkemizin ithalatının az da olsa azalmasına katkımız oldu hem de biberli yeşil zeytin üreten diğer firmaların daha ekonomik bir şekilde üretim yapmalarına olanak sağladık. Ayrıca tüketicilerimizin daha hijyenik koşullarda üretilmiş, zeytin tüketmelerini sağladık.

Sonuç olarak kalitemizi artırmak ve geliştirmek için bundan sonra da arge ve çalışmalarımıza devam edeceğiz.

Nesilden Nesile

بدأت عائلة غونغور (Güngör) بإنتاج الزيتون في قرية نارليجا (Narlıca) في مقاطعة أورهانغازي (Orhangazi) في بورصة (Bursa) ببداية التسعينات.

لقد قمنا بتوسيع تجارتنا للزيتون التي بدأناها بكميات صغيرة بدعم من المزارعين الذين نستورد منهم الزيتون وبتشجيع عملائنا الذين نبيعهم الزيتون وذلك من خلال انشاء مصنع للتعبئة والتغليف في كمليك (Gemlik) الذي باشرنا بنائه عام 2003.

وفي عام 2010، استثمرنا في مصنعنا بمدينة آهيسار (Akhisar) الذي يقوم على مساحة 30 دونماً من الأراضي. ويخترن مصنعنا 600 طن من الزيتون، كما يقوم بتعليب 20 طناً من الزيتون يومياً، وأضفنا مؤخراً إلى محفظتنا مجموعة من أنواع الزيتون الأخضر والزيتون المجرح.

في العام نفسه، أضفنا إلى هيكلنا شركة بينار للمخللات والزيتون (Pınar Turşu ve Zeytinleri) التي تعمل في قرية كيدليك (Gedelek) الشهيرة بأورهانغازي منذ 40 عاماً في قطاع المخللات. و من خلال تأسيس بنيتنا التحتية تمكنا من تلبية مطالب ورغبات عملائنا من جميع أنواع الزيتون والمخللات.

يتم حصاد منتجات الزيتون والمخلل مرة واحدة في السنة. لذلك، يجب أن يتم قطف الزيتون المراد معالجته والخضراوات المراد تخللها أثناء الحصاد وتخزينها في ظروف مناسبة. ويخضع الزيتون الذي يتم انتقاؤه في فترة الحصاد لفقدان الجودة والنكهة إذا لم يتم تخزينه في ظروف مناسبة. وبالنظر إلى زيادة محصول الزيتون في بلدنا، فإننا قمنا عام 2016 بافتتاح مصنعنا المتكامل في منطقة كميح (Gemiç) في أورهانغازي حيث بدأنا بتأسيس هذا المصنع عام 2014 من أجل تقديم منتجاتنا التي ننتجها على مدار العام لعملائنا بشكل مستمر. ويمتلك مصنعنا المدمج في كميح (Gemiç) سعة تخزين تبلغ 15000 طن. وفي مصنع كميح (Gemiç) المدمج، نتمكن من إنتاج 100 طن من المنتجات يومياً بفضل أحدث خطوط إنتاج التعبئة والتغليف التكنولوجي.

ومصنعنا في المجموع لديه القدرة على تخزين 21000 طن من الزيتون و 6000 طن من المخللات المخمرة. ونقوم بإيصال المنتجات التي ننتجها إلى العديد من الأسواق ونقاط البيع بالتجزئة في 81 مدينة ببلدنا. كما نقوم بتصدير منتجاتنا إلى أكثر من عشرين دولة، معظمها في الشرق الأوسط، والجمهوريات التركية، وروسيا، وأوروبا. لقد كان ولا زال قول مولانا "إن الهم يُرشد إلى الطريق الصحيح" بمثابة شعار لنا. فأصبح همنا الوحيد هو التركيز على كيفية تحسين إنتاج الزيتون بجودة أفضل ونوعية عالية. ولتحقيق هذا الهدف نجري دراسات مهمة جدا في مجال البحث والتطوير.

على سبيل المثال، قللنا من معدل ملح الزيتون الأسود بنسبة 25% إلى 30% في المتوسط مقارنة بالماضي. بالإضافة إلى ذلك، فإن منتجاتنا من الزيتون الأسود المجفف قليل الملح، تحظى بشعبية كبيرة لدى عملائنا.

وبما يتعلق بقطاع الزيتون الأخضر بالفلفل الأحمر بدأنا عام 2016 بإنتاج معجون الفلفل الأحمر المستخدم كحشوة لزيتون الأخضر في مصنعنا بأهيسار. فإن معجون الفلفل كمنتج مستورد من الخارج سابقاً هو من نتائج دراساتنا التي أجريناها في مجال البحث والتطوير لمدة سنتين. ونحن فخورون بأن نكون شركة محلية تعمل في مجال تصنيع أول معجون فلفل أحمر في تركيا. ومع إنتاج معجون الفلفل الأحمر، ساهمنا في انخفاض الواردات من بلدنا عند الحد الأدنى، كما جعلنا من الممكن للشركات التي تنتج الزيتون الأخضر الطازج أن تصنع بطريقة اقتصادية أكثر.

كما وفرنا للمستهلكين الوصول إلى الزيتون المنتج في ظروف أكثر صحية.

وكما سنواصل دراساتنا في مجال البحث والتطوير لتحسين وتطوير جودتنا. وسنبذل كل ما بوسعنا لتحقيق هذا الهدف.

Nesilden Nesile

Güngör Family has begun its olive trading in the early 1990s while producing olives in the town of Narlıca in Orhangazi / Bursa.

We have expanded our small scale olive trading by launching our Gemlik Packing Plant that we founded in 2003, with the support of our producing farmers that we supply olives and the incentives of our customers.

In 2010, we have made our Akhisar plant investment that has the capacity of 6000 tons of olive storage and 20 tons of olive packing per day on 30 acres of land and have extended our product portfolio adding the types of green olive varieties and sliced olives group.

We incorporated Pınar Pickles and Olives Firm that operated in the pickle sector for 40 years in the well-known Gedelek village of Orhangazi into our company in the same year. By this means, we have set up the substructure to meet the demands of our customers with all types of olives and pickles.

Olives and pickles are products harvested once a year. Therefore, olives to be processed and vegetables to be pickled should be stored in appropriate conditions during the harvest periods. If the crude olives are not stored in proper conditions during the harvest period, quality and taste loss incur. Taking into consideration the growing olive yield of our country, we have launched our integrated plant in the Gemiç neighborhood of Orhangazi in 2014, in order to deliver our products throughout the year to our customers in a stable manner.

Our Gemiç integrated plant has 15.000 tons of product storage capacity. We can produce 100 tons of products per day through our latest technology packaging production lines in our Gemiç integrated plant.

We have 21,000 tons of olives and 6,000 tons of fermented pickle storage capacity in all our plants.

Our products reach many markets and shops in 81 cities of our country. We also export our products to nearly 20 countries such as, the Middle East, Turkish Republics, Russia and Europe.

In the light of Mevlana's "a care guides your way" statement, we have a particular concern to olive and we are carrying out critical research and development works in order to produce better quality olives.

For example, we have reduced the salt rate of our black olives by about 25% -30% compared to the past. In addition, our less salted, dried black olives are gaining great popularity among our customers.

We started the production of pepper paste that is used as a filling for green olives in the production of pepper stuffed olives in our Akhisar plant in 2016. As it was previously imported from abroad, pepper paste is a result of our 2-years R&D studies and we are proud to be a domestic company that manufactures the first pepper paste in Turkey. With the production of pepper paste, we have both contributed to the import reduction of our country and enabled other green pepper olive-producing companies to manufacture more economically.

Eventually, we will continue our R&D studies to increase and improve our quality henceforward.
